

THIRTY-NINTH YEAR

BISMARCK, NORTH DAKOTA.

THURSDAY, SEPT. 9, 1920

PRICE FIVE CENTS

DEATH LIST IN EARTHQUAKE DISASTER

3RD BOOSTERS
TOUR PLANNED
ALONG THE SOO

Will Be Held on Sept. 23-24, and
Will Start Along the
North Soo

EXPECT STRONG SUPPORT

Advantage of Tours Shown in
Incident Related by Bis-
marck Business man

The third booster tour of the season will be held Thursday and Friday, Sept. 23 and 24.

This was definitely announced today, after representative leaders in the two spring good roads—ship by truck tours had suggested the tour and then received voluntary offers of support from many business men.

There'll be a band, airplane, "n everything on the tour, which will cover Bismarck trade territory northeast of the city. The tour will follow the North Soo route. The remainder of the territory to be covered is still under discussion, and Phil J. Meyer and Al Rosen would welcome suggestions from business men.

SUPPORT THE ELKS' PAVEMENT DANCE

Strong support for the Elks' band pavement dance, to be held Friday evening, is voiced by local boosters, who appreciate the purpose of the band in trying to raise funds to enable it to pay the director regularly. The band is held to be a distinct asset of the city, and should receive liberal support. Broadway, between Third and Fourth streets, is to be scrubbed and polished for the dance, and those in charge promise it will shine like a ball room floor.

Tour Purpose

The "four-fold purpose" announced before the tours held under Commercial club auspices last spring was to obtain in the last tour of the season as follows: "Good roads, ship by truck, trade in your own home town, and Bismarck—your jobbing center." The message of good fellowship will be carried by the boosters. A committee of boosters will call upon business men in the next few days and ask pledges sufficient to cover the advertising expenses of the tour. The individual members of the tour pay their own expenses, and the boosters only ask the towns to be visited for an exchange of good fellowship.

The Town Criers club, just organized with Phil J. Meyer as president will get behind the tour. The Town Criers club is out to make good on its first job as "promotion agent" of a bigger Bismarck. A meeting of the board of governors has been called for tonight, and a meeting of the entire membership will be held soon. Novel advertising stunts will be developed for this tour, which the boosters declare will eclipse the other two.

Value Is Shown

An incident related by a local business man was related to show the advantage of such a tour. He visited some towns covered by the first two tours. In each one, he met men who remembered his visit with the tour. The local man received a lot of compliments for the members of the tour. The unselfish purpose demonstrated by the members was declared a long forward step in solidifying relations for the whole state country and advancing a spirit which will aid the development of the entire section.

DEVELOPMENT OF
CHEMISTRY DUE
TO PUBLICATIONS

Prof. Noyes Says Journals Have
Made Rapid Stride in Science Possible

Chicago, Sept. 9.—The very rapid development of chemistry during the last half century in no small degree upon the improved facilities for publication which have made new discoveries very quickly available for all who wish to use them. Professor W. A. Noyes of the University of Illinois told the American Chemical society here in his address as president.

He reported that in the forty years of its existence the American Chemical society had grown from a membership of 283 in 1889 to 15,577 on Sept. 1 of this year.

President Noyes observed that the journals of the society had had a great deal to do with causing its membership to "grow far beyond that of any other in the world."

"Our three journals form, undoubtedly," he added, "the most important activity of our society and through these journals we contribute more to the advancement of our science in America and each succeeding year, in a very rapidly increasing degree, throughout the world, than by means of all our other activities combined."

Of the American Chemical society news service, Prof. Noyes said "the remarkable services which chemistry has rendered in the world have been ignored or submerged had not the American Chemical society seen to it through this channel that due credit was given to the chemical warfare service, of which it was the sponsor before the nation."

It has been found that ostrich eggs last for many weeks without any particular care.

CAN HE SMASH
CHICAGO VICE?

CAPT. HUBERT HOWARD

Captain Hubert Howard, Illinois state prohibition officer, who declares he could have been a millionaire from the bribes offered him by the booze ring in Chicago, is leading a big assault on Chicago's underworld.

GUARD OFFICER
ASSIGNED HERE
BY WAR OFFICE

Inspector-Instructor of National
Guard Soon Will Be
on Duty

An inspector-instructor of the National Guard will soon be assigned to North Dakota, according to information received by Adjutant General Craser from Washington. The officer, it is expected, will make his headquarters in the Adjutant General's office.

The first company to be inspected by the officer, according to Adjutant Sorenson, will be Company M, of Grand Forks. This company was mustered in last week. It is the only company in the state which has attained sufficient strength to be recognized.

"The Grand Forks company is composed of a splendid bunch of men," said Major Sorenson. "There are 13 ex-service men in the company, but most of the members are young men, eighteen to twenty years old. The officers seem to be active, energetic men."

The Grand Forks machine gun company will soon be organized. Steps have been taken in other cities in the state to complete the guard organization.

According to a report received by Adjutant Sorenson, the National Guard gained over 3,000 members during August, with Wyoming leading the list of states in the percentage of full strength attained.

MAGAZINES AND
BOOKS WANTED
AT THE PRISON

Library Much Used by Prisoners,
and No Appropriation
Available for Magazines

Here's a chance to put a little sunshine inside of a brick wall. The penitentiary inmates read a great deal. At times there are as many as two or three books out of the prison library for each prisoner. The library, while fairly well stocked, can be greatly improved by the assistance of the people generally, according to Beecher Starr.

Right now magazines are desired, as well as books of all kinds. There is no state appropriation which permits the prison authorities to subscribe to enough magazines to supply the demand.

Any good magazine or book will be thankfully received by the prison authorities. Magazines which have been used are welcome. They should be mailed to the prison librarian.

WEDS WIDOW OF SON;
QUESTION: WHO'S WHO?

O'Neill, Neb., Sept. 9.—When Charles Crosser of Inman, a small town near O'Neill, married Mary Crosser, the widow of his own son, a few days ago, he hopelessly jumbled the relationship of the families. Crosser is 70 and his wife 40. Crosser becomes her son-in-law, and he becomes a brother-in-law to his own son. Mrs. Crosser's children by her first husband become their own uncles and aunts, their mother becomes their grandmother and their grandfather becomes their father.

MAYOR OF CORK
GROWS WEAKER;
MAY BE FREED

Friends See in Lloyd George's
Statement Hope for Liber-
ty for MacSweeney

LONG HUNGER STRIKE

Brother Surprised at Endurance
of Lord Mayor; End Ex-
pected Soon

London, Sept. 9.—Lord Mayor MacSweeney, of Cork, who is incarcerated in Brixton jail where he has been on hunger strike since August 12, passed a very bad night and complained again this morning of dizziness, according to a bulletin issued today by the Irish self-determination league.

He also expressed numbness in his hands and legs and a physician who attended him considered him much weaker than he was yesterday. The Lord Mayor was visited last night by Father Patrick MacSweeney, a cousin, who said he was surprised to find the prisoner so well.

Cries Comes Soon
He expressed belief that the crisis would not come before three or four days. The hunger strike issued by the league stated that signs of atrophy of the skin had appeared, and that as a consequence the mayor's arms were being massaged and bandaged.

After visiting Mayor MacSweeney last evening the prison doctor told his sister, Annie, that her brother was in a grave condition, according to a statement issued by the league today and that there could be only one end to his continued hunger strike.

Hope for Release

Friends of the lord mayor, his wife and his children were much encouraged at the presence in England of Premier Lloyd George, who returned from Lugger yesterday, and they hoped that something might ensue favoring the Irish prisoner.

Former Premier Asquith, answering an appeal for his intervention in behalf of Mayor MacSweeney, said: "I think the decision to allow the lord mayor to die in prison is a political blunder of the first magnitude. I would gladly intervene if any appeal of mine could lead even now to wiser counsels prevailing, but I fear that the latest declaration of the minister precludes any such hope."

An inspired statement issued last night indicates that Premier Lloyd George is willing to accept guarantees from Sinn Fein headquarters that police murders will cease, and that he does not require a personal guarantee from Lord Mayor MacSweeney.

MODERN SCHOOL
BUILDING WILL
SERVE STEELE

Gymnasium Among the Modern
Features of New Structure
Under Construction

Steele, N. D., Sept. 9.—One of the finest and most modern school buildings in the state is nearing completion here.

The building, which will replace the structure burned last year, will cost about \$75,000, and will be ready for occupancy in November. The building is a two-story brick, with a large gymnasium, 40 by 60, and domestic science and manual training departments in the basement. Adjoining the gymnasium are shower baths.

On the first floor there will be six grade rooms. The high school will occupy the second floor. An unusual feature is the separation of the second floor for the junior and senior high schools. The junior high school consists of pupils of the seventh, eighth and ninth grades, and the senior high school of the tenth, eleventh and twelfth grades. There is an assembly room for each.

The school is to serve the town and township.

The Steele schools, under C. S. Torvond, superintendent, and Miss Irene Olson, principal, will open on Monday. Until the completion of the new building school will be held in churches, lodge halls and other buildings that may be necessary.

SECOND LAP OF
AIR MAIL BEGINS

Omaha, Neb., Sept. 9.—The second lap of the trans-continental air mail service officially inaugurated yesterday was started today when a plane left Iowa City, Ia., at 10:10 o'clock with pounds of mail for Pacific coast points.

COLBY TELLS OF
SUFF VICTORY

Official notice from Secretary of State Colby of the ratification of the federal suffrage amendment is in the hands of Secretary of State Thomas Hall today. Under a ruling of the Attorney General, no legislative action is necessary to provide methods by which women may vote under the amendment.

PEACE PARLEYS
OF POLES AND
RUSS TO BEGIN

Necessary Guarantees Are Ac-
corded Soviet Government and
Delegation Will Meet Poles

RED TROOPS FALL BACK

Evacuate Town Near Brest-Li-
tovsk, Says Statement Is-
sued From Moscow

Warsaw, Sept. 9.—Lithuania has given the necessary guarantees to the Russian Soviet government and as a result a Bolshevik peace delegation will go to Riga to meet Polish representatives, the Polish foreign minister was notified today by the Russian Bolshevik minister of foreign affairs. The latter did not mention the date when the Soviet representatives would arrive.

SUCCESSSES CLAIMED

Warsaw, Wednesday, Sept. 9.—Successes by Polish troops against the Russian Bolshevik south of Brest-Litovsk are reported in an official statement issued here. It is stated that Soviet forces operating between Kamionka-Strumilova and Byk have been defeated with heavy losses, and that Polish troops have crossed to the eastern banks of the Bug and occupied Jankunowa crushing enemy forces concentrated in that vicinity. About 200 prisoners were taken in this action. It was added.

EVACUATE TOWN

London, Sept. 9.—Russian Bolshevik forces fighting against the Poles southwest of Brest-Litovsk have evacuated Hrudiesnow, 30 miles west of the Bug river, under pressure from Polish troops, says an official statement issued in Moscow. The statement admits Soviet troops in that region have been withdrawn to the eastern bank of the Bug river.

LENROOT WINS
OVER THOMPSON
IN WISCONSIN

Non-partisan Endorsed Can-
didate Falls Behind—League
Man for Governor Leading

Milwaukee, Wis., Sept. 9. John J. Blaine, of DeCobel, Republican candidate for Governor of Wisconsin, in Tuesday's primary was leading Roy Vilcek, Eau Claire, by 902 votes, according to returns compiled by the Milwaukee Sentinel from 1,794 precincts out of 2,379.

Senator Irvine L. Lenroot's victory over James Thompson, La Crosse, was marginally decided. Figures of the Sentinel from 1,760 precincts show Lenroot leading by 23,225. Thompson was endorsed by the Non-partisan league.

Blaine's vote from precincts reported is 88,491 and Vilcek 87,589. Lenroot's vote stood at 137,414 and Thompson's 114,198, while McHenry polled 35,979 as far as heard from.

At La Follette's headquarters the claim is made that Blaine will have 4,000 plurality when the total vote becomes known. On the other hand Vilcek's manager is claiming victory.

The fact that there were six candidates for the nomination for Governor, dividing the strength against the La Follette machine and Blaine, Non-partisan endorsed, operated in favor of Blaine.

OPPONENT OF
WILSON WINS

Atlanta, Ga., Sept. 9.—Incomplete returns from yesterday's state-wide Democratic primary compiled early today by newspapers indicated that Thomas E. Watson, publisher and once Populist candidate for president had been nominated for United States senator in the Democratic primary.

During the campaign Watson was outspoken in his opposition to the league of nations and in his criticism of the Wilson administration.

Arab women paint their feet and the children their hands, with a henna stain.

In London is a firm of wine merchants with a continuous history since 1667.

"LEPER OF KIDDER COUNTY" MOVES;
FAMILY DOESN'T LEAVE THE HOUSE

The house of "the Leper" of Kidder county, a Mrs. Houst was moved, and the leper moved with it, according to word reaching here today.

After debating what action would be taken to dispose of the woman, who is declared by physicians to be in the last stages of leprosy, the county commissioners purchased a tract of land near Crystal Springs, and moved the leper's house from Crystal Springs to the tract. With Mrs. Houst has lived her father and mother and a 13-year-old daughter. They all remained in the house while it was moved, by order of the authorities.

Mrs. Houst has suffered from leprosy for several years, but no action was taken until after a recent diagnosis by a physician who had become familiar with the disease in the Philippine Islands. He believes Mrs. Houst was afflicted with the disease when she came to America several years ago.

CHICAGO SOCIALIST IS HIRED AS
AGENT OF BANK OF NORTH DAKOTA

Carl D. Thompson Speaks in Middle West States in Interests of
Bank—Expenses Paid by Bank While He Is
Out "Soliciting Funds"

Carl D. Thompson, known as a Chicago socialist, has been named "special representative" of the Bank of North Dakota. A want ad published in the Clinton (Iowa) Herald, Aug. 28, reads as follows:

WANTED—Every working man, union and non-union, to hear Carl D. Thompson, special representative of the farmer-labor state bank of North Dakota. Tuesday night at 7:30 o'clock at Liberty hall. Admission free. Bring the ladies.

FIVE ARE HELD
AFTER ATTACK
ON A LABORER

Angele Meggo Attacked on
Freight Train and Robbed
of Seventy Dollars

New Rockford, Sept. 9.—Angelo Meggo, aged about thirty years, transient laborer, who was riding a freight east Sunday morning, about four o'clock, was robbed by a number of men, of \$70, his watch and a pay check. After robbing him, without resistance, the man was shot once through the abdomen and thrown on the moving train, supposedly dead.

This occurred about a quarter of a mile from Dundas, six miles east of here. The man recovered consciousness shortly and dragged himself to the store of Ole Johnson in Dundas. Staggering to the window he attracted Mr. Johnson's attention then fainted. The authorities here ordered Meggo removed to the Donahue hospital where he died at about 12:30 Sunday afternoon. He was conscious to the end and gave authorities the description of the men, and other details including the number of his watch. He said he put up no fight whatever.

A sister, Mrs. Jenny Jarlin, of Boston, was outlined and is expected to give direction as to the disposal of the body.

Five men were taken from the freight train at Casselton, four of whom were armed with revolvers. They were taken on to Fargo and held until Sheriff Stensby and his deputies took charge of them. They returned here yesterday noon and are now lodged in the county jail awaiting hearings.

The men gave their names as Chas. Bunker, Chas. Bell, A. J. Mannors, Ed Smith and Ed Paulson.

The five men, it is believed, are members of the I. W. W.

COUNTY JAIL IS
EMPTY; CITY CELL
UNOCCUPIED, TOO

No Prospects of Filling the
County Prison; Court
Calendar Clear

An empty county jail is proof that Burleigh county people are either very good or very clever. The jail has no prisoners from this county in its cells and has not had for some months. Several prisoners from a neighboring county are being kept here for safety.

The district court calendar is all clear, as far as any prospects of filling the county's jail are concerned, according to Charles J. Fisher, clerk of the court.

The city police cell is empty and only a few stray "bums" have occupied it through the whole summer. While a relatively large number of people have been brought into court and paid fines the police have had slight use for the city lockup.

But an empty jail has its disadvantages as well as benefits. For example, with a nice yard there is always plenty of labor to clean up the court house yard, sprinkle the lawn, and do all manner of odd jobs. But now the jailer must do this himself.

No one offers any explanation for the present shortage of criminals. Prohibition cannot be blamed, as the state was dry before this year.

An elevator has been installed in the president's yacht Mayflower to save him climbing the steps.

The first umbrella seen in this country arrived in a shipment from England in July, 1770.

NEW NEWSPAPER
TO BE PUBLISHED

A new newspaper will make its appearance in Bismarck probably tomorrow. It will be known as the Farmer-Labor State Record. C. W. Gunnerson is editing the first issue. The paper, it is planned, will be issued weekly in the interests of the Non-partisan league. The new paper is started to combat J. W. Brinton in Burleigh county. It is understood.

NEW SHOCKS ADD
TO HORROR OVER
LARGE DISTRICT

Estimates of Dead Varying,
Rome Survey Indicating More
Than 300 Lives Lost

KING VISITS THE RUINS

Orders Food Distributed to In-
habitants and Plans Relief
Measures

Rome, Sept. 9.—Another violent earthquake occurred in the Emilia district at 2:35 o'clock this morning, causing the loss of life and important damage. The communities suffering the most were Reggio, Ospedaletti, Busana, Tonno and Cavella. This morning's shock was more violent than that of Tuesday.

London, Sept. 9.—Fifty victims of the Italian earthquake have been taken from the ruins of Borgo, says a dispatch from Lucca to the Exchange Telegraph company. The message added that many more are buried in the debris. The small village of Trassuana is a mass of ruins and the survivors have left. Vigas have been destroyed and thousands are homeless at other points the dispatch states.

Rome, Sept. 9.—More than 300 persons perished in the earthquake disaster which shattered cities north of Florence Tuesday morning. Relief agencies are engaged in the work of doing the survivors, and searching the ruins for other who may still be alive but many of the ruined towns are situated in the mountain and are almost inaccessible.

Electric light wires have been broken and work in the ruins must stop at nightfall.

New shocks, but none of them of the intensity of the one which caused the widespread destruction early Tuesday, have been felt in Florence and surrounding territory. These have shaken down permanent structures and still further delayed the work of rescuers. Massa Carrara, a center of the shock, and the survivors cut off from communication with the outside world last night, but it is not believed a new catastrophe has occurred there.

The upheaval was especially terrible in the famous quarry district of Carrara from which comes the finest varieties of marble. Great rocks dislodged by the shock rolled down steep roads leading up into the hills, crushing everything in their path.

Church Shattered
A tragic and memorable scene was witnessed at Marina, near Carrara, when the earthquake shattered a church where mass was being held. The pastor had just raised the chalice for the most solemn moment of the service when the ceiling of the choir fell on the congregation, killing many of those who were worshipping.

The priest was struck by falling fragments of the ceiling and his hands and face were cut but he reverently finished the service before attending to the injuries of those about him.

At Casa Castanetza, another priest was less fortunate, being killed while celebrating mass.

Florence, Italy, Sept. 9.—The number of dead from Tuesday's earthquake is steadily growing as additional reports come in. The latest figures from Fivizzano bring the total of dead here alone up to 432, while in Vignatta 12 are dead and about a thousand injured.

In nearly three-score towns and villages serious damage was done and a total population of more than 10,000 made homeless.

Signor Micheli, minister of agriculture is visiting the outlying mountainous districts and giving all the assistance possible.

KING VISITS RUINS
Fivizzano, Italy, by Courier to Associated Press, Sept. 9.—King Victor Emanuel of Italy today viewed the ruins visited upon this city by the earthquake, which Tuesday shook Northern Italy.

He went into every quarter and entered buildings whose crumbled walls threatened to fall if another tremor should come, and talked with survivors, expressing his profound grief over the misfortune that had befallen them and comforting those who were injured.

Learning that some of the survivors had not tasted food for 36 hours because of the ruin and disorder resulting from the disaster he ordered that all food in his private car be distributed among them.

During his walks through the city the King approached an open court where lay an aged woman and simply touched her forehead. The woman opened her eyes and recognized the king, who was looking at her as that of the monarch. Her eyes were filled with tears and she struggled to kiss his hand.

"My little grandson, my little grandson," she cried.

Family Wiped Out
Inquiry from Victor Emanuel elicited his attention. The woman's entire family, with the exception of herself and two small sons, had been killed.

When the monarch promised to look after the children, lay shown, through the tears in the eyes of the sufferer.

In Rebandano, especially in the desert regions, watermelons grow with over extensive areas.

"IT WAS A BLESSING" SAYS ST. JOSEPH WOMAN

Mrs. Josephine Buschman Gains Twenty Pounds by Taking Tanlac and Is Now Enjoying the Best of Health

"A short time ago I had little hopes of ever getting any better, but today I weigh twenty pounds more than I did and haven't felt so well and strong in many years," said Mrs. Josephine Buschman, 911 North Fourth street, St. Joseph, Mo.

"My health began to fail about two years ago and it looked like everything was wrong with me. My kidneys were badly disordered and I had a continual pain across the small of my back, and at times was hardly able to get up or down. My liver was sluggish, my circulation was so poor that my hands and feet stayed cold and numb nearly all the time and often swelled up terribly. I had indigestion and ate so little I fell off in weight a great deal. Gas would form on my stomach and bloat me up and often I had spells of dizziness. I just dragged myself around the house and often had to stop and lie down. I could never sleep well at night and in spite of everything I could do I was gradually growing weaker.

"I will always bless the day I started taking Tanlac. My kidneys and liver are both in splendid condition now and my back no longer pains me. I have a fine appetite and can eat just whatever I please without any fear of suffering afterwards. I'm not troubled with dizzy spells now, my lost weight and strength have returned and I feel so much better in every way I can do my housework with as much ease as I could years ago."

Tanlac is sold in Bismarck by Jos. Bruslow in Driskoll by N. D. and J. H. Barrette in Wing by H. P. Homan and in Strausburg by Strausburg Drug Co.

CITY BUILDERS HOLD NATIONAL SUMMER SCHOOL

G. N. Keniston Attended Sixth Annual Session at Madison, Wisconsin

The summer school of community leadership, conducted by the American City Bureau, from which George N. Keniston, secretary of the Bismarck Commercial club recently returned is of more than usual interest. The school is conducted annually for ten days each summer at the University of Wisconsin at Madison for the purpose of training commercial, civic and community workers to a high degree of efficiency.

Over 300 live-wire chamber of commerce men and community workers gathered there to exchange experiences and learn what the staff of the American City Bureau, combined with that of the Wisconsin school, could teach them about the rendering of greater service to their home towns and cities. The American City Bureau is an organization which spends its time and energy studying and improving civic procedure and commercial club operations. The magazine, "American City," is published under their supervision.

BISMARCK MEN'S NAMES WILL BE ON HONOR ROLL

Army and Navy Club Plans to Build Great Structure in New York City

RELATIVES' AID ASKED

New York, Sept. 8.—Believing that the official casualty report issued at Washington by the adjutant general can be supplemented to a great extent by friends, next of kin and organizations with which the deceased were identified, the Army and Navy club of America is endeavoring through correspondence to compile a complete authentic list of the officers who died in the world war.

The names, with other data bearing on the civil and military life of the men who made the supreme sacrifice, will be preserved in a \$3,000,000 memorial hall and officers clubhouse to be erected in New York City. Plans for the memorial, which will be in the nature of a great patriotic center were announced a few days ago by Rear Admiral Bradley A. Fiske, U. S. N., retired, president of the club.

Among the men who will be memorialized in the beautiful building to be erected in New York, are the following:

Capt. Addison B. Falconer, Capt. John Wallace Murphy, and Major Frank L. Shuman of Bismarck; Lt. Howard R. Huston, Deering; Lt. Lewis B. Thune, de Lamere; Capt. Jo Hunt Reaney, Devils Lake; Lt. Ralph Dryden, Drayton; Lt. John G. Hubertz, and Lt. Thos. T. Russell, Fargo; Lt. Grant Andrew McDonald, Grafton; Lt. Lester M. Smith, Grand Forks; Lt. James Lester Cole, Kenmare, and Lt. Edgar A. Fisher, Minot.

The cooperation of the families of the deceased and of organizations including clubs, lodges, fraternal societies, business concerns and churches is requested in order to make the file as accurate as possible. Questionnaires have been mailed to the next of kin of all officers whose names are now on the club file, and similar action will be taken immediately on receipt of additions to the list. In this way it is hoped to secure sufficient material to compile a complete record of the service of each officer.

Admiral Fiske earnestly desires that all persons who lost sons, brothers or relatives who were officers in the war, communicate with him at 261 Madison Avenue, New York.

Leading architects of the country, working in competition will submit the plans for the building. The structure probably will be erected around a central court or hall with bronze paneled walls, where the names and records of the 3,500 officers who died will be engraved.

CROP ESTIMATE FOR YEAR MADE BY GOVERNMENT

Washington, D. C., Sept. 8.—The corn prospects improved during August and promised a yield of 3,131,000,000 bushels, according to the report of the Department of Agriculture made public today. The estimates of the crop yields for the year are based upon conditions prevailing on September 1, or at the harvest time.

The estimate of the other most important crops are as follows: Spring wheat, 237,000,000 bushels, 54 percent of normal. All wheat, 700,000,000 bushels, 74.1 per cent of normal. Corn, 3,131,000,000 bushels. Oats, 1,420,000,000 bushels. Barley, 195,000,000 bushels, 82.5 per cent normal. White potatoes, 413,000,000 bushels, 84.3 per cent normal. Flax, 11,800,000 bushels. Tame hay, 82,000,000 tons.

HUNTERS READY FOR THE SEASON

Burleigh county sportsmen are preparing for the opening of the season next week. Already over 150 hunting licenses have been issued by the county auditor.

Many people are purchasing new guns, despite the increased cost of all fire arms. A number of local hardware firms report that their stocks are practically cleaned out, but that they have wired for express shipments, which will arrive this week.

REVOLT AGAINST SOVIET'S RULE

London, Sept. 8.—Several serious revolts against the Russian soviet government have broken out in the neighborhood of Moscow and have been suppressed with much bloodshed, says a dispatch to the Exchange Telegraph company, filed in Copenhagen yesterday.

It quotes telegrams received from Riga.

ASK ATTORNEY TO APPEAR FOR RAIL BODY IN LAWSUIT

The majority members of the railroad commission have asked Attorney-General William Langer to represent the commission at the hearing before the supreme court on Sept. 10, when William Lemke asks that the railroads be enjoined from putting into effect the intrastate rates granted by the commission.

The Attorney General was asked to designate F. E. Packard to defend the commission in the matter. Railroad lines are charging the increased rates, but are keeping a separate fund of the increases, as directed by the supreme court, so that rates can be granted in the event a permanent restraining order is granted.

KICK IS FATAL TO TUTTLE MAN

Ira Anderson, of Tuttle, died in a local hospital last night as the result of an injury received from a horse's kick.

Some time ago Anderson was working on his farm, using a plow. A horse standing near kicked the work and the handle of it struck Anderson, puncturing the abdomen and piercing the intestine.

He was taken to the hospital here, but leakage from the pierced intestine slowly poisoned him. The body will be shipped tonight to St. Paul for burial.

Mr. Anderson was a farmer, about 26 years old. A wife and three children survive him.

REVIVED NINE TIMES; IS 'OFFICIALLY' DEAD

Houston, Texas, Sept. 8.—After coming to life nine times in the last year after he was thought dead, Granberry, unknown, except to the police record, died here yesterday and was officially pronounced dead by the physicians at the municipal hospital.

He has been almost buried a number of times, but in each case revived just before being interred.

TAKE ACTION TO STOP STILL SALE

Washington, Sept. 8.—In an effort to end illicit distilling of intoxicating liquor the treasury decided today to tighten regulations around the sale of stills and add another check to its means of tracing down their users.

EXPENSIVE "CUSTOMER"
Ryder, N. D., Sept. 8.—A salesman made a deal to supply a man who was in the market for a quantity of Canadian whiskey. He delivered it, but the customer proved to be a federal agent. The man was fined \$1,000.

The forests of Western Siberia are stated to be 200,000,000 acres in extent.

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. "No, this Outfit isn't perfect— but it's pretty darn near it"

Willis Cornell.

That's the kind of testimonial we like. It is part of a letter written us by Willis Cornell, of Baldwinville, N. Y. Mr. Cornell bought one of our Power and Light Outfits about a year ago and writes some plain facts about it. Read his interesting letter below.

Western Electric Company

Dear Sirs:

"The only place where I know that perfection exists is in heaven and in patent medicine claims. I will say though that most of the many farm light plants admit they're the best. Maybe I'm foolish, but I didn't buy any of these 'best' ones—I bought a Western Electric."

"I don't believe a sane man would point to any one automobile made in America and call it 'best.' And doesn't that apply to power plants too? Price enters, so do looks, pride and the purpose you want the plant for."

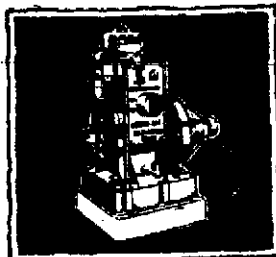

"It seems to me that a farmer's main purpose in getting a plant ought to be power, plenty of power. Any man knows what excess power in a motor car means on hills—but that isn't half as important as ample power in a farm plant. You can go up a hill on second, but your farm work goes down hill unless you have enough power to run the machinery."

"So when you think of electricity, don't think of light and stop there. Of course, the light is mighty handy, but it is

The extra powerful outfit that saves time and money

"With its extra capacity engine and ample generator the Western Electric Outfit is an economy because it will do all the big and little chores around the place."

"If you have a gas or kerosene engine on your place you know what a valve-in-head motor does to give more power, and how important it is to have an oiling system that works for sure. (That last is the difference between 20c a quart and burned out bearings at \$2.00 a pound.)"

The Rising Tide

DURING the month of May, 1920 (latest figures obtainable), the gasoline production in the United States was 381,079,291 gallons, a daily average of 12,292,880 gallons, the highest on record.

(Bureau of Mines.)

The rising tide of petroleum consumption may be taken as an indication of increased industrial activity and of the extension of power farming.

The Standard Oil Company (Indiana), serving eleven Middle Western States where both agricultural and industrial production are high, is bending every effort of its vast and experienced organization to produce sufficient gasoline to meet the rapidly rising demand.

The Standard Oil Company (Indiana) refineries are working intensively to obtain the maximum of gasoline from every gallon of crude oil. Not only are the methods in use by the Company the most modern known, but they are carried on with that maximum of economy attendant upon large-scale operations.

Distribution of petroleum products by the Standard Oil Company (Indiana) is both comprehensive in development and economical in practice.

The Standard Oil Company (Indiana) offers its highly developed efficiency as a service to the people of the Middle

U. S. WATCHES FOR MOVE BY OBREGON

Washington, Sept. 9.—State department officials are interested in learning the attitude President-elect Obregon of Mexico may be expected to adopt towards foreigners, especially Americans, after he takes office. Already a careful study has been started of his public speeches which, it is said today have indicated that American lives and property would be safeguarded.

General Obregon's revolutionary success was attributed in part by officials to a feeling in Mexico that the narrow, nationalistic policy was not serving the best interests of Mexico.

Prairie dogs and other mammals found in desert regions never drink

BACHELOR'S PREXY FEELS CLUB'S WRATH

Pueblo.—The "wrath" of members of the Tenderfoot Bachelors' club was aroused when their president, George Sullivan, broke all rules and married. A few nights later the members called to take George and his bride for a ride. They drove up to a lamp pole, other members sprang from the car, handed him and tied him to the pole. He was left there for a couple of hours.

SCOTTISH RITE REUNION.
Fargo, N. D., Sept. 9. Nov. 15 to 18, inclusive, are the dates for the

next reunion of the Fargo bodies of the Scottish Rite. The class taking the Scottish Rite degrees in December, 1915, is the one called for special reunion the evening of Nov. 16. The class of five years ago comprised 27 members, and all are living except one, C. H. Troyer, former chief of police of Fargo, who died in Duluth, Minn. The reunion of the Scottish Rite in Minn. will be held Nov. 5 and 6.

ADMIT CAMPAIGN QUOTAS WERE SET BY REPUBLICANS

Chicago, Ill., Sept. 9.—Charges by Governor Cox that the Republicans had fixed campaign fund quotas in 51 cities and that the national committee had a part in assessing the city quotas were admitted before the senate investigating committee here today by Harry M. Blair, assistant manager of the national campaign committee.

Reading from a document produced by Mr. Blair, which he said was sent by mail to the cities named in the famous form "1000" Senator Reed brought out that the Republican office had planned to organize an intensive drive for funds in 51 cities, three more than were named by the Ohio governor.

INCENDIARY FIRE NEARLY FATAL TO TRAIL CO. FARMER

Huxton, N. D., Sept. 9.—John Sanborn, a farmer living 15 miles north of here narrowly escaped death by being burned to death this morning when his house and barn caught fire. The blaze appeared to be of incendiary origin.

Hay had been piled around the outside of both buildings before being set on fire. The unknown incendiary first fired the barn, but in setting to the house broke a window, waking the housekeeper, Mrs. Betts. As a result the fire at the house was extinguished before it had gained much headway.

Horses in the barn were burned, and the barn and shed destroyed. The total loss is estimated at \$6,000. Trail county officials are investigating the cause of the fire.

COMMISSIONER MALONE THROWN FROM HIS HORSE

County Commissioner Malone narrowly escaped serious injuries today when he was thrown from his horse while riding on his farm near Regina. His horse stepped into a hole, stumbled and threw Mr. Malone.

He was able to get up and with some assistance was taken to the house where medical aid was summoned. No bones were broken, but Mr. Malone was badly shaken up and it may be necessary to bring him to Bismarck for treatment.

BIG ENROLLMENT SEEN AT U. N. D.

Grand Forks, Sept. 9. Prospects are good for a record enrollment in the University of North Dakota during the coming year. An unusually large number of prospective new students have sent their credentials to the University, applying for admission this autumn. It is expected that the enrollment, which was 1472 during the academic year 1919-20, will this year be increased to 1600. The total enrollment for 1920-21, including the summer session and correspondence study, was 1441.

M. E. MEETING IS ARRANGED

Duluth, Minn., Sept. 9. Arrangements are complete for the annual Norwegian-Danish M. E. conference to be held here from Sept. 29 to Oct. 3, inclusive, it was announced today.

The conference will include as delegates pastors and laymen from the Chicago, Minneapolis and Red River valley districts, covering seven states. About 150 delegates will attend.

SALVATION ARMY QUOTA ANNOUNCED

Fargo, N. D., Sept. 9. The county allotments for North Dakota fixed by the state convention of the county delegates of the Salvation Army county advisory boards include Burleigh county, \$2,700; and Morton county, \$3,000.

YANKEE ESCAPES AFTER CAPTURE BY MEX BANDIT

Mexico City, Sept. 9.—W. A. Cardner, a citizen of the United States, who was captured by Pedro Zamora, the Jalisco bandit, on August 20, at Laredo, has escaped, according to official advices.

General Enrique Estrada, commanding government troops pursuing Zamora, reported last evening to the War department that he had been advised by Major Hedio Del Puerto, commander at Atlix, that an American, MacSwiney, had arrived at Atlix and asked for an escort to bring Cardner from a ranch some distance from town.

It was stated that Cardner took refuge at this ranch following his escape from the bandits during the fight at Sanchez Divisado, more than a week ago. An escort was sent out for Cardner. General Estrada added that British consul Holme at Guadaluajara, had received a similar report. Nothing is known as to the whereabouts of Bertie C. Johnson, a British subject who was a fellow captive of Cardner.

WIS. REPUBLICANS NOMINATE BLAINE

Milwaukee, Wis., Sept. 9.—John J. Blaine, of Boscorbel, Republican, announced in the gubernatorial race for nomination as governor, leads Roy Wilcox, of Eau Claire, by 6,300 votes with 200 precincts yet to be heard from, according to figures compiled this noon by the Milwaukee Journal. The Journal announces that Blaine has received the nomination.

INDIAN WOMAN DIES WEDNESDAY

Mrs. Ten Enemy, of Ellsworths, died at a hospital here last night following a two days' illness.

Mrs. Enemy was 69 years old and a number of children survive. The body will be sent to Garrison tonight and funeral services will probably be held at Ellsworths later in the week.

"BIRTH OF NATION" STAR

Henry B. Walthall, popular star, won new laurels as Col. Cameron in the wonderful film play, "The Birth of a Nation." The play will be shown at the Orpheum theater for the last time tonight. The symphony orchestra, which plays a three-hour program, received acclaim from the audience last night.

ESTIMATES WHEAT CROP OF STATE

Grand Forks, N. D., Sept. 9.—North Dakota wheat production is estimated for Sept. 1 to be 70,574,000 bushels, compared to 53,500,000 last year and an average of 86,000,000 bushels. State fall outlook is 4,677,000 bushels compared with 3,800,000 last year and an average of 6,325,000, according to A. J. Surratt, field agent of the U. S. Bureau of Crop Estimates.

Refers from Visit
New Rockford Transcript.—Mrs. Mary E. Ellsworth returned today from a month's visit with children, grand-children and great-grand-children at Killdeer, Bismarck and Fargo. While Mrs. Ellsworth is now past 82 and able to travel alone, she met an older pioneer at Forman, Col. C. H. Forman, the founder of that town, who is now 92 and in vigorous health.

PUBLIC SCHOOL ENROLLMENT IS BIG FIRST DAY

Enrollment for First Day Shows 400 Increase Over 1916 Figures for Same Day

TUESDAY FAIR DAY

The Bismarck public schools have started the 1920-1921 school year with an enrollment of 12,226 pupils. This enrollment is 400 greater than the enrollment at the beginning of the school year in 1916 four years ago.

This total does not, however, represent the enrollment for the school year as quite a number of students will center later in the fall and still more can be expected later in the year.

The enrollment by schools is: Will school, 428; William Moore school, 300; Wachter school, 100; High school grades, 95; High school, 300; making a total of 1226.

New Equipment
Among the new equipment added to the school plant this fall are 12 sets of new drawing instruments for the use of the manual training classes, and 24 new T squares also for the manual training department.

The teachers of the Wachter school were the first to hold a picnic. Wednesday evening they went on a hike to the river, giving the new members of the staff opportunity to see the geographic location of the city. They cooked their supper along the banks of the Missouri.

This is the first of a series of group hikes and picnics which will be enjoyed by the teachers. On these excursions they will have a chance of becoming better acquainted and establish friendships as well as have a good time.

Have Fair Tickets
"All the children of the public schools who wish to attend the Missouri Slope fair at Mandan will be excused for that purpose on Tuesday only," announced Superintendent Martins today.

Tuesday is children's day at the Mandan fair and all children are entitled to free admission to fair grounds. A quantity of tickets for the children are at the superintendent's office and may be obtained by applying there at any time prior to the day of the fair.

On Tuesday the children from all over the Slope territory will be welcomed to the fair. Tickets have been distributed to all teachers and superintendents within the district and it is expected that all schools will allow their students to attend that day.

Fair officials state that the educational exhibit at the fair are as good as the school work.

Ask Walks for School
George Will, president of the school board requested the city commission to see about walks leading to the new F. H. Richholt school building. The commission took no action, as Commissioner French, in charge of the streets, said they were unable to get the walks constructed.

Present indications are that no walks will be leading to the new school this fall.

FIELD DAY ON ROOF GARDEN FOR ROTARIANS

To the Bismarck Rotary Club is given the unique distinction of having held their weekly luncheon yesterday at a higher altitude than has any other Rotary Club in many of the Northwestern states. Promptly at 12:30 o'clock the members of the club gathered at the Roof Garden where a surprise awaited them and instead of their luncheon being served in the usual way, they were escorted by the Entertainment Committee to the Roof Garden where the tables were arranged under the blue canopy of a sunny, North Dakota sky, with a view of the city of Bismarck and of the country beyond for miles in every direction.

During the luncheon several new members and visitors were introduced to the club.

Following the luncheon, the Committee in charge announced a Rotary Field Day with real out of door sports which the hundreds of square feet of polished floor on the roof made possible, a tug of war between the old and

Child Temporarily Lost
Joy Holmboe, two and a half year old daughter of Peter Holmboe, 362 Fourth street, wandered away from the Holmboe studio yesterday afternoon and for some hours her parents searched for her. The child was finally found, none the worse for its "trip," on Avenue D, near Eighth street.

Orpheum Theater
The management of the Orpheum theater today announced that "in our advertisement of Tuesday, Sept. 7, evening prices for 'The Birth of a Nation' were given as children 25 cents, adults 50 cents. This is a typographical error, and the prices should be and are as follows: Children 50 cents, adults 75 cents, plus war tax."

Hold Shower Tuesday
The Daughters of Isabella held a miscellaneous shower Tuesday evening at the home of Mrs. L. D. Wiley, 407 Tenth street, in honor of Miss Rita C. Conway, who will soon marry Gus O. Hogue, Jr., and Miss Katherine Griffith, also a future bride. About 30 members of the club attended, and both young women received a number of useful and beautiful gifts.

Pavement Dances Tomorrow
The Elks' band will give a pavement dance Friday evening, starting at eight-thirty. The dance will be held on Broadway between Third and Fourth streets, and the committee in charge promises that the pavement there will be scrubbed and polished.

OPEN FOR BUSINESS
I beg to inform my customers and the public that I have again opened my Home Bakery, and will continue business at the same address, 214 Sixth street. —Mrs. Emma Larson.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

EQUAL JUSTICE TO ALL

Above the clamor of demagoguery and of class propaganda, the logic and common sense of Senator Warren G. Harding are most refreshing and promising. Every farmer in the state should read and ponder over the address given at the Minnesota State Fair by the Republican presidential nominee. It is a splendid antidote to the doctrine which has been preached in North Dakota during the last four years and voices in unhesitating manner the Republican party's attitude toward the agricultural interests. The nub of the speech is summed up in this paragraph:

"The farmer needs just laws, can profit by co-operation, but should not be the object of government paternalism."

And again:

"Government paternalism, whether applied to agriculture or to any other of our great national industries, would stifle ambition, impair efficiency, lessen production and make us a nation of dependent incompetents. The farmer requires no special favors at the hands of the government. All he needs is a fair chance and just consideration for agriculture as we ought to give to a basic industry and ever seek to promote the common good."

There is no bitterness or rancor in this. It is the doctrine of equal justice to all—both the man in the city and the man on the farm. No law can long survive which is passed to benefit solely one class and inure to the damage of another class. He is the worst enemy of the republic who seeks to build up one class to the exclusion of others in the commonwealth.

North Dakota has been experimenting in paternalistic forms of governmental action. It is true that we have progressed slightly beyond the stage of the prospectus, but many have seen enough of the dreary mess to know that nothing but breakers and disaster are ahead if the policies of class legislation are carried to their logical ends.

The North Dakota farmer is realizing more and more what state paternalism is costing him in increased taxation. Each new venture of Townley's utopia adds more people to the payroll and commits the state to additional indebtedness. There is also evident now a frantic effort to shift as much as possible the burden of taxation to what the socialist regime terms "Big Biz," but the expert tax masters of the Townley clique are deceiving no one. Every voter in the final analysis will pay his share of the increased tax load directly or indirectly in the form of increased living costs.

Senator Harding has the courage to brand the agrarian policies of Townley and his followers for what they really are. His attitude is in direct contrast to the hedging and begging stand taken by Governor Cox, who rants about the conspiracy of Big Biz and slush funds, uttering the stock claptrap of the trained demagogue.

The Minnesota address of Senator Harding should impress the West with the sterling quality of the man.

ADVICE TO LOVERS

Women's suffrage seemingly being ratified, it behooves a young man in love to gain a thorough knowledge of the political issues of the day.

Fancy him calling on his girl on a Wednesday evening—Isn't that the evening for calling?—and saying to her: "Where will you go tonight?"

And she replies: "Let's stay in the parlor this evening and you tell me all about the League of Nations, and especially about that Article X. I don't know a thing about them and you know the election is coming on."

Ah, young man, that will be the hour of judgment for you. She will discover quickly whether her hero is but a man with feet of clay and head of bone.

How will you get by, young man? What will you say?

"Now let's begin with Article Xf" she will go on. "Just what is it?"

Glibly you have answered her questions at baseball games, and have won a reputation with her as a fellow who seems to know everything, but here is where ignorance at length intrudes and betrays you.

Better study up, young man.

If woman's suffrage thus will promote political education among young men who desire to be well thought of by their girls, that will be another feather in the cap of a good cause.

WHY BOYS LEAVE HOME

Long, long ago boys left home to give battle with the redskins of the western prairies, or to woo fortune on Wall Street, or to capture Jesse James.

None of these ambitions dwell within the modern lad. He has come to know that the Indian doesn't fight, Wall Street shears lambs, and bandits are dangerous to pursue.

So the youth of 1920 runs away to be a movie hero.

Probation Officer Louis Savour, of San Antonio, Tex., says this call of the movies is heard by boyish ears as well as by their sisters. Savour insists boys of this day would rather be a Charlie Chaplin, or a Doug Fairbanks than a president, or a banker, or Babe Ruth. He catches any number of them on their way to Los Angeles, headed straight for film fame.

"I tell 'em," Savour said, "that there's about one chance in a million stepping into Chaplin's shoes, while if they go home and study hard they may be elected president of the United States."

THE FAMINE FEAR

Europe today is nearer a normal food production basis than she has been since 1913. Production of food throughout the whole northern hemisphere is somewhat better than the five-year average before the war. The southern hemisphere now holds great surpluses of food from last spring's harvests.

Famine forecasts are of the consistency of thinnest vapor. The wolf of hunger growls not at the door of the man who works and does not foolishly waste his earnings. There is plenty of food in the world today. Northern harvests will carry the world through a winter, until the crops of the south half of the world mature—and even then, there'll be food to store away for future use.

The great food crops—Mother Earth produces—wheat, corn, rye, barley, oats and rice—are well up to the average. The American wheat crop on Aug. 1 was more promising than on July 1. It bids fair to exceed the five-year average yield. It isn't as large as last year's. That isn't necessary. Some 30,000,000 bushels were left over from the 1919' crops. Canada's wheat crop is good. These, excepting alone Russia, are the main wheat producers of the northern hemisphere. Argentina, India and Australia still have wheat unsold, and now are turning under ground for next spring's harvesting. Russia, alone of all the wheat countries, is a problem. Bolshevism is to blame for that. Russian peasants refuse to grow wheat to trade for the worthless rubles Lenin prints so incessantly. But even without Russia there's enough wheat for the year's needs.

Corn in the United States is better than last year. And corn easily is turned into pork chops and beefsteaks.

International crop reports indicate pleasing results in rye, barley, oats and rice, all of which in some lands are used as food for humans, and for food animals in other countries.

Just as it is true that no famine is possible this year so it is true that the present generation, at least, need worry none about future famines. That old nightmare of a population increasing too rapidly for food production to keep pace is a nightmare. There's no reality to it. The greater the demand for food the more food will there be grown. The increasing demand has sown rice in swamps never used by humans before. It has sent the reaper over millions of acres, once thought too dry or too cold for wheat. It has grown rye and barley and oats where only wild grass once stood. It has given birth to a new breed of corn in the Dakotas and elsewhere.

There's a lot of unreality in reel life.

Those who shun wood alcohol will avoid the bier.

A front porch campaign precludes, at least, the temptation to break the law.

Maybe Trotzky will show his comrades how to trotzky back toward Warsaw.

Troubles spring from idleness, and grievous toils from needless ease.—Franklin.

There are 1600 varieties of lizards in the world. Not including the kind found on hotel lounges.

It is remarkable how ingeniously Cox and Roosevelt disguise all knowledge of a French Lick oligarchy.

It is unreasonable to believe that anybody could make a hit in this country with a get-three-quick campaign.

Will 17,000,000 women voters force the installation of mirrors in the polling places before November 2?

Bryan's heart is broken, Senator Reed is mad and Boss Murphy is suspicious. But F. D. Roosevelt prattles on joyously.

A New York modiste has bequeathed \$400,000 to build a home for aged dressmakers. A place, it is to be supposed, in which "They all may bask in the seamless joy where button-holes do not annoy."

WORKS IN POSTOFFICE TO GET "INSIDE FACTS" ON CONGESTION

Chicago Newspaper Man Tells Why Government Service Has Broken Down

BY ROY H. FRICKEN, Of the Chicago Evening Post.

Chicago, Sept. 9.—What is the matter with the mail service?

It is common knowledge that this once highly-organized, efficiently functioning arm of the government, has sadly deteriorated during the past few years.

My paper wanted to know the truth. I was given a month's furlough, with instructions to get a job in the Chicago postoffice. I passed the civil service examination. But I went to work as a temporary substitute postal clerk. For they can earn more than a civil service clerk can earn after five years.

The men with whom I talked and mingled did not know who I was. They did not know that I was a writer. They would never appear in print. They talked honestly and fearlessly, as one man talks to a fellow employee, when their interests are common. More than one employee told me I was a fool to be working in the postoffice, and they urged me to get out, before I was caught in the web of the system.

Hate Their Jobs
The inside story of the postal service is a story of a body of men who are viciously underpaid. The men hate their jobs, and many of them think they are perfectly justified in cheating Uncle Sam by loafing, as much as possible. The old-time civil service employee has high standards of integrity, but they are rapidly leaving the service.

The Chicago postoffice is now the dumping ground of all the strikers in the city. At the present time, nearly 300 of the "outlaw switchmen" who broke from their parent organization last spring, are working in the postoffice.

They Laugh at Their Jobs
The labor turnover is desperately costly. As soon as a man learns a process or distributing mail he is hired away by another employer. The morale of the postoffice is broken. The men do not care. "I could make more money digging ditches," said one. "My 18-year-old boy makes more money than I do," said another.

The preponderance of temporary substitutes over former years is startling evidence of the disintegration of the postoffice. In June of 1915 there were only 528 employees who were substitutes. The rest of 6189 employees were under civil service. Now there are at least 2000 temporary substitutes working. They are interested only in short-time employment.

The postal service is headed for disaster. Unless Congress does something to increase the wages, to make the service more attractive, to better working conditions, and to develop a healthy morale among the men, business men the country over will be the losers by millions of dollars.

HEALTH ADVICE

BY UNCLE SAM, M. D.

It is pretty well established that neither cold nor dampness, nor even the two together will by themselves produce "a cold" or pneumonia. A germ is almost always necessary, and apparently the greater the number of germs to which the person is exposed, the more frequently such exposure occurs, or the greater the length of exposure, the more probable that infection will occur. Careful bacteriological investigations have shown that the germs of "colds" and pneumonia are often found not only in the nose and throat

These, then, are facts worth remembering, for with a little care we can safeguard ourselves against the invasion of the disease germs which produce colds and pneumonia. Good food, fresh air, and avoidance of fatigue, will help keep up our bodily resistance, and keeping out of crowds and especially away from those who cough and sneeze without covering the mouth and nose, will help us avoid mass infection with disease germs. Nothing complicated about that, is there?

JUST JOKING

Sense of Fitness.
"Are you going to wear that old silk hat again?" inquired the critical woman.
"Yes, I am going to a funeral and a high hat always looks more melancholy when it's out of style."—Washington Star.

And He Had a Band on His Hat.
First Class Scout—I can play the piano.
Second Class Scout—That's nothing. I can play the bugle, the violin and the banjo.
Tenderfoot—I got you all beat by a mile. I kin play all of those things on the Victrola—Boys' Life.

Considering Posterity.
Old Multitox—Want to marry my daughter, do you? Think I'll make a nice, comfortable father-in-law, eh?
Young Altherve—No, I don't, but I'm going into this thing with my eyes open. What worries me is I've picked a pretty rough grand-father for my innocent children.—Detroit News.

The 72 races inhabiting the world speak to each other by means of 3,004 "different tongues."

EVERETT TRUE

By Condo

Washington, Sept. 9.—The national woman's party owes \$10,000. The governors of Vermont and Connecticut and the legislature of Delaware should pay this, as if they had done their duty the party would now be in the black instead of in the red. Recent intensive campaigns brought in the liabilities.

But the creditors needn't worry, as women always pay their debts. The party has 50,000 members. It has spent close to a million dollars in the last seven years bringing federal suffrage. At a convention soon, Miss Alice Paul will account to the members for every cent that has been spent and what it went for.

I got it straight from James M. Doran, assistant to Dr. Arthur B. Adams, assistant to Prohibition Commissioner John Kramer, that there is nothing to the story that bootleggers cut the bottoms from bottles containing bonded goods and refill them with an inferior brand of whiskey. He says that story is one that "will not down," but there is no more truth in it than the one told by Major A. V. Dunsen, that they are shooting bobos across the Great Lakes in torpedoes.

"The story was originated by a bottle concern that blows its glasswax from the top instead of from the bottom," said Doran. "The bottles blown from the bottom have a jagged disc at the bottom and the story was started to discredit the bottles. It is too much of a compliment to say a bootlegger has the skill to cut the bottom from a bottle to refill it. Instead, he would steam the label off and put the inferior contents in at the neck."

"The Tennessee legislators who absconded to Alabama to prevent the completion of ratification locked their barn after the horse was stolen," said Alice Paul. "If they really wanted to defeat ratification, they should have left before we got the amendment through and thereby prevented a quorum."

Miss Paul didn't have enough sense of humor to give them this advice before ratification was completed.

G. O. P. CAMPAIGN BOOK MADE READY FOR DISTRIBUTION

New York, Sept. 9.—The Republican campaign book entitled "Republicanism of Nineteen Twenty," is about ready for distribution. It was announced today by its editor, Frank Hendrick, a New York lawyer. His part of the work occupies 51 of the 271 pages. The book is to be distributed to newspapers and campaign workers and its object is to enlighten on campaign issues.

The volume has been referred to by Democratic leaders as "Boss Barnes' book," with the intimation that its purpose was the raising of campaign funds. According to Mr. Hendrick, William Barnes of Albany, the Republican state leader, had nothing to do with the writing or the obtaining of contributors.

Those contributing articles include former Senator Albert J. Beveridge, Eltha Root, Albert T. Smith, Hart, Governor D. C. Hoag, Representative Sherman, Benjamin B. Odell, Chauncey M. Depew, Supreme Court Justice William R. Day, Major General Leonard Wood and Arthur Twining Hadley, president of Yale University.

FOR PROHIBITION.

Winnipeg, Man., Sept. 8.—The United Farmers of Manitoba will take an active part for "bone dry" prohibition this fall, according to W. H. Wood, secretary of the organization. Every local in the province will be in the fight, because the membership is practically 100 per cent for prohibition, he declared.

An ounce of gold leaf, rolled out, would cover an area of 14 square feet.

Experiments have recently been made in driving motors by spirit made from straw.

Why Suffer With Piles?

No Matter If You Have Tried Many Others There Still Is Hope in Pyramid Pile Suppositories.

Try Pyramid just as quickly as you can. It should give quick relief and has saved many from an operation.

 WANTED TO TRADE—One 20 gauge
 Winchester Hammerless Repeating

FRANCE

The lightness touch that made life seem
 As if a holiday, a dream,
 With song and dance;
 The boulevards and fashions gay,
 The windows of the Rue de la Paix,
 The Champs Elysees golden way—
 That was not France!

Chateau, cathedral, legends told
 Of bygone glory, armor old
 And red lance;
 Kings, cavaliers, and ladies fair,
 With manners grand and debonaire,
 Jewels, and lace, and powdered hair—
 That was not France!

The mood that set a final seal
 To nothing—changing with the wheel
 Of circumstance;
 The coup d'etat so quickly made;
 The sans-culottes, the red parade,
 The murders of the guillotine way—
 That was not France!

But when the great world-peril came,
 There rose a mighty soul of flame.
 A from France,
 It faced the monster whose foul blow
 Would all life's noblest things overthrow,
 And stayed him with a thunderous "No"—
 And that was France!

When hope was faltering, and distress
 Seized honest hearts lest righteousness
 Had scarce a chance,
 We heard a voice cry: "All is well!
 I'm doing, but no tongue shall tell
 I finished before the head of hell!"
 And that was France!

When Moloch fell at last, whose breath
 Had swept with suffering and with death
 The land's expanse,
 A figure stood, face toward the goal,
 With bleeding heart, but honor whole,
 Sublime in aim and self-control—
 And that was France!

J. Farquhar company, called on Mr.
 Stewart, and in the first of a series
 of articles, in System, telling his mem-
 oirs over his 64 years in active busi-
 ness. Mr. Farquhar relates this inci-
 dent.

"As we were passing one of the
 aisles, a man was sweeping up and
 Mr. Stewart's eye caught some rags
 among the litter. Rags were much
 more valuable then than today because
 that was before wood pulp was used
 in paper making. Immediately he
 stopped, walked over to the sweeper,
 and in a very loud and imperious
 voice reprimanded him for his waste-
 fulness. Then he went on into the
 office and at once I asked:
 "Did it not use up more of your
 time to speak to that sweeping man
 than the rags were worth?"

"That's fine," he answered, "but you
 will notice that I spoke so loudly that
 everyone in that room heard what I
 said. I meant that they should, so
 as to give them a lesson in saving, for
 money is made by saving—saving and
 investing. You get your profit out of
 the leaks that you stop!"

The Hungry Man.
 At the restaurant—"I say, waiter,
 can't you speed things up a bit in the
 kitchen? Tell the chef I'm starving.
 I've waited half an hour for my din-
 ner."

At a friend's—"Mind waiting an
 hour longer for the turkey to cook?
 Not at all! Hadn't realized it was after
 the hour you mentioned. Dare say
 there will be some later train I can
 catch."

At home—"Say, what in Sam Hill
 is that with dinner? Expect me to
 wait all night? Never saw such a
 place! Why, here it is five minutes
 after the regular time right now!"

KAISER'S PETS ARE IN SAB PREDICAMENT

Former Privileged Officers of Wilhelm Have Difficulty in Finding Work.

No one in Germany sighs more fervently for "the good old days" when the Kaiser held sway than the former army officers. Forced out of the government pay roll, untrained for work other than soldiering, and so generally disliked by the population that he had difficulty in finding any kind of employment, the officer's lot in democratic Germany is a hard one. His prewar world, in which he strutted about as the privileged pet of his emperor, has been utterly destroyed.

A former officer, dolefully discussing his plight, remarked that the expression once current in the United States, "There's no good Indian but a dead Indian," applied precisely to the German public's attitude toward the officer class.

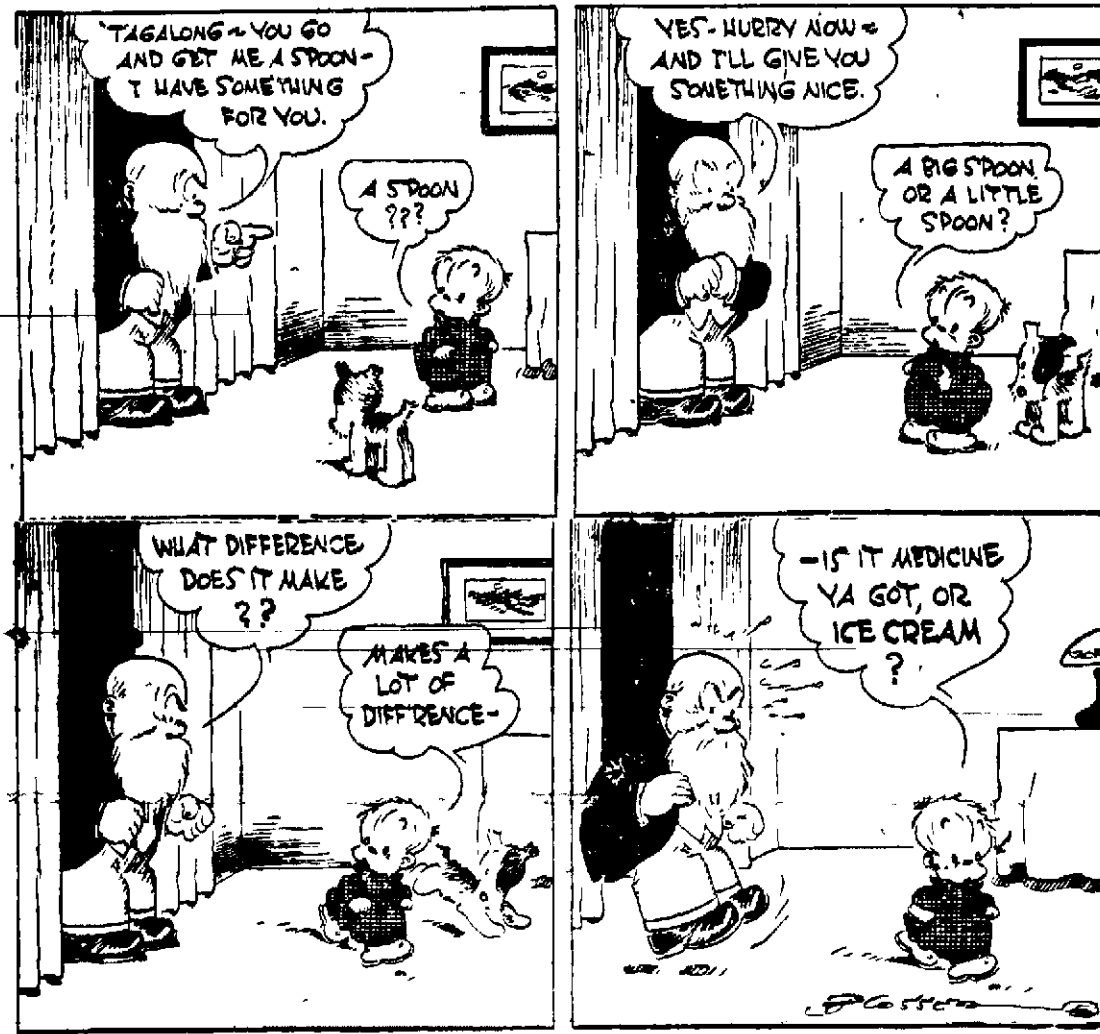

Private soldiers bear out this statement. "At the beginning of the war," one said, "the troops were fond of their officers, who ate the same food, carried their own packs, and shared the hardships of the men. But mostly of the regular officers were quickly killed off, and those left were sent away from the lines for staff and other duties.

"Their places were taken by reserves, who were an entirely different lot. They had to have special kitchens and milk and plenty of wine. They refused to march with the troops in ways riding in automobiles and making the men carry their packs. They were bullies and tyrants and the men grew to hate them. The civilian population felt the same way. I was in Belgium and when we withdrew to the Rhine and the people there were willing enough to provide lodgings for the officers, but they refused to have the officers in their homes."

 The Wife: Dear I just bought a
 bottle of another kind of hair tonic.
 Try this.
 The Lesser Half: Now, I've tried
 that kind and it ain't no good.
 The Wife: Wazzamatter with it?
 The Lesser Half: Why it's got an
 awful flavor.

MOTHER OF TWENTY-SIX
 Woman is Comparatively Young, Says
 Health Inspector.

Abundin Rivera, forty-two years old,
 mother of 26 children, only one of
 whom is living, was revealed at Los
 Angeles as one of the most unfor-
 tunate mothers in the history of the
 continent.

According to the report filed by Dr.
 Margaret Parr of the Los Angeles
 county health department, 25 of this
 mother's children have died before
 they reached the age of one year.
 The last child, a seven years old
 and is said to be healthy.

Discovery of the remarkable case
 was made by Dr. Parr in her work
 in the interest of better babies, which
 is being directed by Dr. J. L. Pomeroy,
 head of the department.

Mrs. Rivera was found living near
 San Gabriel with her third husband,
 who is only twenty-two years old.

GREAT DRY DOCK IN NAPLES
 Italian Government Authorizes Con-
 struction of Mammoth Affair on
 Mediterranean.

Washington—The largest dry dock
 on the Mediterranean is planned for
 Naples.

Recent decrees of the Italian govern-
 ment authorizing the construction of
 this dock and a smaller one at the in-
 dustrial port of Bari, Aviano provide
 that work must begin within six
 months of the official date of the
 declaration of peace.

Besides the dry docks, it is planned
 to transform Lake Aviano for the use
 of ship yards, and to build a canal
 connecting the lake with the port of
 Naples proper.

The Italian government will within
 a period of fifty years pay out half
 of the cost of the work and at the end
 of sixty years the entire property
 automatically becomes government
 property.

EX-KAISER FEELS HIGH COST
 Exchange on German Mark Prevents
 Former Emperor Renting Staff
 Quarters.

Do not think that the former Ger-
 man Emperor will be able to rent a
 staff quarters in the city of Berlin.
 The exchange on the German mark
 has been so low that the former Em-
 peror is unable to pay the rent of
 his quarters.

The former Emperor is now living
 in a small apartment in the city of
 Berlin. He is unable to pay the rent
 of his quarters because the exchange
 on the German mark is so low.
